STUDENT COACHING

*StudentReach exists to develop the potential of students through empowerment, coaching, mentoring, and volunteering.*

StudentReach was established in 2004 under the executive direction of Jeffery Devoll. It is the mission of StudentReach to help students meet their full potential and become outstanding citizens, regardless of the circumstances they may be facing. We employ a variety of methods to accomplish this.

## UNDER-SERVED AND AT-RISK YOUTH

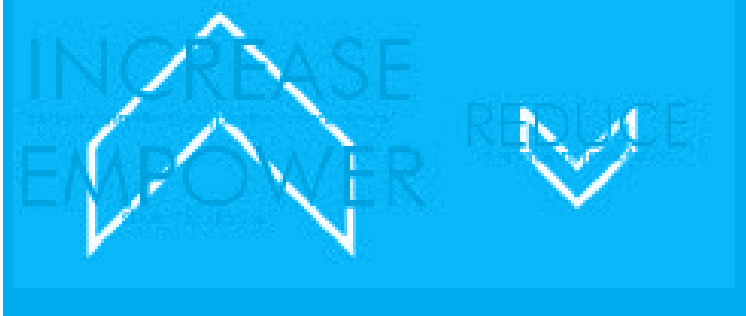

We are helping At-Risk, Homeless, Refugee, and Foster students reach their full potential. Schools are benefiting from the success of the youth they serve through this award winning

## STUDENT PROFILE

Joseph joined our life coaching class as a newly arrived refugee to Sacramento. Upon joining our class, he was searching for friends and struggling with behavior in school. Our program gave him an opportunity to grow his network of friends both within the refugee community and the greater Sacramento region. After attending and completing the Life Coaching course he decided to become a student leader. He has since helped us lead other students in our programs, invited other refugee youth to join our coaching program and is no longer struggling with behavior issues.

a research-based, proven-effective program for helping students at all levels of development. As schools recognize the need for multi-faceted social-emotional support for student success, coaching is becoming recognized as the most effective technique for behavior modification. Our life coaching program, won the Partners in Educational Excellence award in 2015 from the Association of California School Administrators.

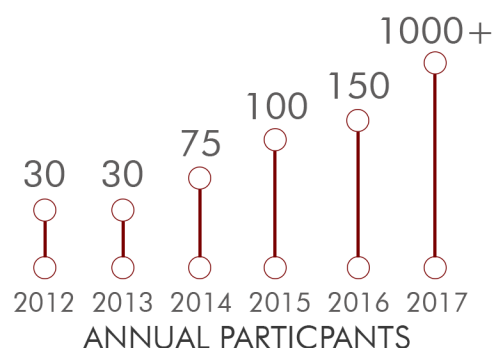

TRAINED COACHES ARE COMMITTED TO THEIR STUDENTS. THEY UNDERSTAND TEENS AND KNOW HOW TO INSPIRE THEM. OUR STAFF BRINGS WITH THEM DECADES OF EXPERIENCE WITH YOUTH.

- ALL COACHES HAVE BEEN FINGERPRINTED -
